Decentralized AgTech: Your Data, Your Network, Your Community

Fruitful Network Development

Founder & Creator

Dylan Montgomery

- Computer Engineering & Mathematics
- Motivated by Community

THE PROBLEM

The System Isn’t Built for Small Agriculture

- Industrial Farming
- Barriers For People To Help
- Lack Of Options

CUSTOMER SEGMENT

The People Behind the Problem

Local HUBs: Disconnected & Under-Resourced

Juggling many suppliers & tools manually

Buyers demand is real—but the systems fail them

Customer segments

Community Service Agriculture (CSA)
- Delivers SSL to subscribers.

Farmers' Markets
- Payed vendor fees to sell at

SSL Grocery Stores
- Only source from SSL producer

VISION

A Future Where Local Agriculture Competes at Scale

- Local businesses with big-league logistics
- Modular, open tools—zero subscriptions
- A future where digital ecosystems belong to everyone

SOLUTION

FDN's Framework: Built for Hubs, Powered by Connection

Organize Internally

→ Websites, Shipping, POS, or Inventory;

Then connect externally

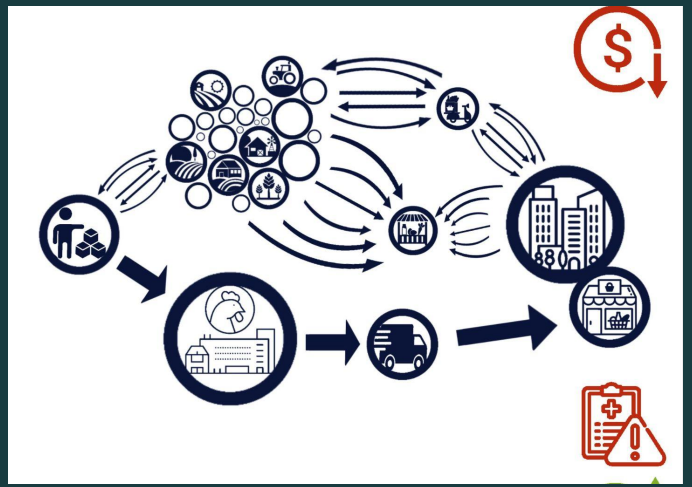
Open-source:

→ You own it

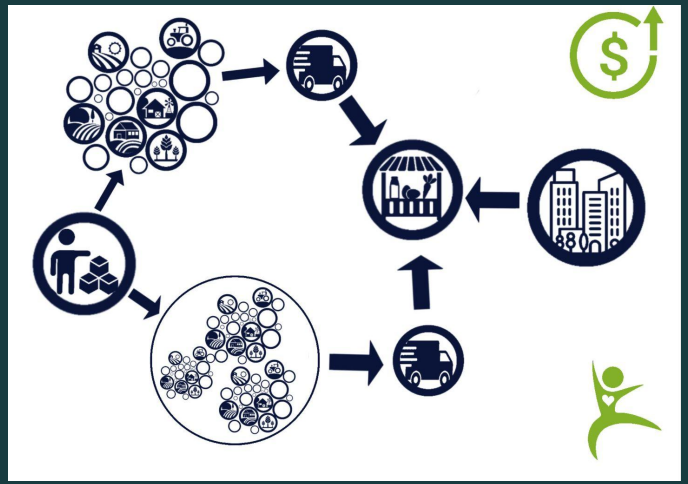
→ We tailor it

→ No lock-in

Before



After



VALUE PROPOSITION

Decentralized Tools That Drive Local Efficiency

01

TOOLS

Use Simple Tools To Automate & Integrate

- Inventory
- Supply
- Orders
- Delivery
- Schedules
- Reports

Or Design for a team

02

INSIGHTS

Get Predictive Insights on

- Waste
- Margins
- Trends

Or Plan with past data.

03

NETWORK

Connect

- Bureaus
- Unions
- Foundations
- Suppliers
- Business
- Consumers

04

ADAPT

React to sudden changes in the business landscape with chain protocol.

Enables growth later. Add functionality like bar codes.

MARKET

A $70 Billion Gap in Local Agricultural Efficiency & A Disruptive Model

2.8 M

SOM: Given a developmental period, FDN could serve a market of NE Ohio Counties

7.4 B

TAM: Total US market annually has ~70 Billion in losses.

- 10% share of recoup

80 M

- **SAM**: 2-5 years to serve Ohio's market
- 800 Million lossed)

MARKET COMPETITION

The Only Open, Subscription Free, Scalable, Tailored Option

	Subscription free	Tailored	3rrd party Integratable	Inventory POS management	Delivery management	Team Sweet	Website integration

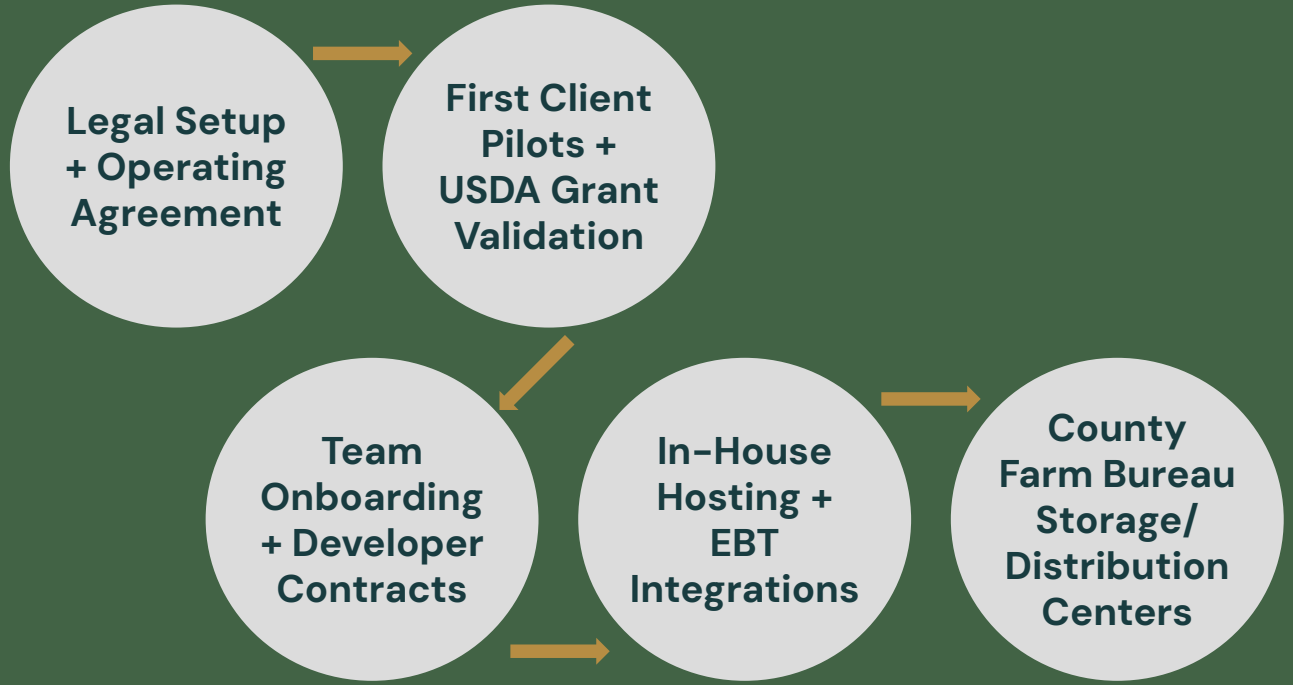
ROADMAP

Ready to Launch With the Right Backing

2 Year goals:

- Pilot Client Deployment
- USDA Pilot Study
- Farmers Bureau & local Gov. Partnership



NEXT STEPS

Let's get ***MOO-ving*** to build something local, scalable, and ours.

- Collaboration over Centralization
