What 1 or 2 hypotheses are you trying to test in this interview? (Hypotheses are statements, not questions; they often start with "I think…")	**Market Validation (Speaking to industry individuals):** - **What are the current distribution needs and solutions for the AGNET** - **What are the current supply needs and solutions for the AGNET**
Use the space provided to list prepared questions, with space below each for notes, for your interview.	**Goals:** - **To understand the potential customer's top 2-3 problems** - **To understand the potential customer's current processes** - **To understand further downstream implications of the problem** - **To understand try to quantify the severity of the problem** - **To understand the limitations of the customer's current solutions** - **To understand the decision-making process** - **To understand what the current budget is for solving the problem** --- **Question:** - **What technological uses and costs (Website, Software, Service portals, Phones, Internet, Email, Hardware, POS, ect.)** - **What considerations are there in expanding operations?** - **What problems have you faced with short shelf life and fragile products?** - **How are internal operations challenged for a family farm (Software/hardware)?** - **And externally for family farms or other Network individuals?** - **Most costly part of being a vendor** - **How do you stay engaged** - **How have you found out about Markets and HUBs** - **What info do you wish you knew about suppliers** - **What do you wish people new** --- **Notes:** - **Currently only goes to Kent Haymaker's Farmers Market this time of year** - **In the summer there are about Five that the vendors sells at with help** - **Some on Friday, Thursday, Saturday and Sunday** - **Has online sales, Store Front, and Farmers Market revue streams** - **Hardest part and most important is keep steddy customers and earning trust** - **Most business comes from about 10% of the people at the farmers market's that are loyal customers** - **For the owner, he seems to think that the hardest part about selling to restaurants is the profit margins the restaurants operate on and thus the prices they would need to sell at to be competitive**

	Notes: - **I guess with more processed products like pasta, there is a greater concern for price in selling to restaurants rather than the changing manager issues for un processed agricultural products**
